Takes cold drinks vending to the **Max!**

Quality | Satisfaction | Sustainability

The best has just got even better! The BevMax 4 is a greener, more reliable and technologically advanced merchandising platform that showcases a large variety of product and reliably delivers it to the consumer every time.

The machine is also available in 2 model sizes, 35 select (990 mm wide) and 45 select (1181 mm wide), increasing its versatility even further!

## QUENCH THIRST, DRIVE UP SALES

- Market leading vend speed - the perfect solution for busy vend areas
- Vends 0.5l PET bottles on all trays
- Tall product pushers reduce the risk of product tipping
- Trays are free of wiring harnesses, motors or solenoids, ensuring reliable operation
- Dual delivery gates provide a truly shimless vending system. Bottles and cans of different sizes can be loaded and vended without adjusting the set up
- "Fail safe" ramp design - encourages dropped bottles to fall into a recessed area ensuring uninterrupted operation
- Increased vend reliability - fault rate is 1 in 39,000 vends, driving service costs down
- Increased sales and profit vs. stack machine from same footprint
- Modular refrigeration system - improved performance and common with Merchant
- Door opens 90° flush allowing BevMax 4 to be positioned next to a wall or in a bank of machines
- One platform, 2 sizes = common parts

Place the BevMax 4 with snack, food combination and drinks machines from the Crane Merchandising Systems range to create a total vending solution tailored to the needs of specific staff/customer preference or location.

Image shows BevMax 4 35 select, Shopper 2, Merchant 4 & Evolution. Base graphics shown on Merchant and Evolution are available as extra cost options.

## Fast, smooth product delivery system

- Fast and accurate X-Y product delivery mechanism is able to vend virtually any permutation of cans, PET and glass bottles
- Delivery cup smoothly retrieves each vended product with little or no agitation
- The system provides total control throughout the vend cycle, eliminating the possibility of product tipping from the tray during or after the vend
- Delivery mechanism retracts out of sight in the bottom of the door providing customers with an unobstructed view of all available products

- Delivery hopper rotates and opens automatically when a product is dispensed into it
- Delivery port is vandal resistant, preventing pilfering from the cabinet

## Large, illuminated "shop window"

The large, illuminated glass front of the BevMax 4 is lit by long-life low energy LED lighting, providing consumers with a clear, unobstructed view of all products available, allowing maximum sales impact and further enhancing its environmental credentials.

## A sustainable partnership

With over 80 years vending experience, strong, continuous investment in NPD, and a focus on quality in everything we do, CMS is your long term partner when it comes to providing high quality vending solutions, after sales support and complete peace of mind.

## Caring for the environment & reducing operating cost

The BevMax 4 is one of the most **energy efficient**, vending machines in the market-place today.

The machines have achieved impressive EVA EMP ratings of A+ (35 select) and A++ (45 select). BevMax 4 is available as Carbon Neutral.

"...look at the added value BevMax 4 delivers..."

N.B. All values shown are from US field trial data for BevMax 4 - 45 select and based on an exchange rate of \$1.51 = £1.00.

- Maximum Reliability
- Increased Profitability
- Consistently Delivered
