Melodia

A++
energy
rated

 **NECTA**

Slim in style, wide in choice

With slender proportions, Necta's new **Melodia** models provide a broad range of dispensed products. Particularly suited to locations where space is limited, these flexible and reliable vending machines will integrate the **Melodia** into its environment.

USER INTERFACE

- Large LCD Display
- Touch-sensitive keyboard giving the end user visual/acoustic feedback of the selection
- LED lighting of the product compartment.
- Possible to install up to three payment systems at the same time
- Newly designed dispense compartment easy to brand
- Now with individual spring type bottle bridge allowing a variety of bottle heights on one tray

TEMPERATURE MANAGEMENT

- A highly efficient, reliable and low-consumption cooler unit installed at the base of the vending machine. Its capacity is perfectly balanced with the energy consumption need of each Melodia model.
- It is possible to place the Melodia flat against the wall thanks to front to front air ventilation.

ELECTRONICS

- Compatible with MDB and Executive protocol
- Transmission and collection of statistics according to EVA DTS system

MAINTENANCE

- New rolling price display
- Easy opening of door thanks to the grip in the interface area

**GREENER
BY NATURE**

Melodia is an environmental friendly model fitted with ground breaking "green" features, such as:

- Energy saving LED lighting
- High performance refrigeration from Eco friendly compressor
- High tech glass panel requires no additional heating elements
- Energy management system

Together the energy saving measures allow a reduced energy consumption, so that Melodia Classic is rated **A+++** class according to the EVA EMP 3.0 protocol.
